

TEQIP III : Rural Industries: Establishment, Sustainability and Challenges

The TEQIP III Programme on “Rural Industries: Establishment, Sustainability and Challenges” was organized by Prof Kavya Dashora, Assistant Professor, CRDT, IIT Delhi on 27-29 June 2018 at IIT Delhi, Sonipat Campus. The key objectives of the programme were to understand the potential challenges in establishment of rural industries, resource availability and management to mitigate the challenges for rural industries and to develop skills for management for rural resources for industries development. There were 20 participants from various technical institutes of India. The IIT faculties Prof Rajendra Prasad, Prof V K Vijay, Prof Satyawati Sharma, Prof S K Saha, Prof Vivek Kumar, Prof Kavya Dashora enlightened the participants with the relevant topics about rural industries. Other speakers included experts from United Nations Organization and Corporate sector. The industrial visit to a Panchgavya based industry was conducted and the participants found it very useful as a rural industry potential. The external observer and Chief Guest for Valedictory function was Prof Raj Nehru, Vice Chancellor, Haryana Viswakarma Skill Development University. He communicated the importance of skill building to strengthen the rural industrialization.
